Additional Registration Information

For those wanting to take the G-418 course but have not taken the “Prerequisite Course - IS405 or IS405a”. Due to the current Government shut-down the FEMA Training site where you would take these courses is currently closed. Those without either of these Prerequisite courses “**cannot**” complete the online STEMS Registration. But our SEMA T&E staff have created a work around for this situation.

For those who have not taken the IS405 or IS405a but want to take the scheduled G418 Courses follow the steps below:

- **Send an email to Robert Klick (Robert.Klick@sema.dps.mo.gov) - stating your interest in taking one of the G418 course offerings below.**

Robert will get you registered. Our SEMA Training & Exercise team will hold your G418 completion certificate until the FEMA Training website re-opens allowing you to complete the prerequisite course. Once you’ve completed the course send that information to Robert and they will send you the G418 Certificate. My apologies for all these extra steps, but I am grateful that our T&E team have made this accommodation given the importance and timing of this course offering. Please sign up at your earliest convenience.
