They continue to work with local community mental health organizations and related entities to ensure the needs of all are met during disasters and emergencies.

5. **Donations Management:** Chairs are Karen Whitson and Charles Gerhart. Todd Jordan is the Chair of Financial Management. The following report-out was provided:

A big thank you Karen Whitson who has helped to corral members of Mass Care and Donations Management around a plan to engage local Chambers of Commerce regarding financial support before and during a disaster that can come from the business community. That meeting is set for Thursday the 15th and we look forward to reporting back on next steps.

United Way recently returned from a national convening with colleagues from across the country. Locally, United Way has been activated as a platform for receiving donations during a major event (example- Super Bowl Parade Shooting), but we have learned a lot from our colleagues in Houston, Los Angeles, and New Orleans around fundraising preparation that can be done to make solicitation turnkey during a disaster. We look forward to operationalizing these best practices to support our areas disaster response.

Also, United Ways across the country have partnered to create a dashboard that reviews historical data on post-disaster assistance mapped to household economic vulnerability. The dashboard will launch this soon and it looks like a

great tool for understanding the amount of need in the community as well as if assistance is sufficient to help households. Will keep everyone updated when it launches.

The following update was provided: We continue to meet the 3rd Friday of each month at 9 a.m. It was reported that there is ongoing effort to develop protocols pertaining to disaster preparedness, response, and recovery. We are connected to the local community mental health centers to ensure services continue during the WC.
9. **AFN or Access and Functional Needs:** Meets the 2nd Friday of each month at 9. I (Jennifer L'Heureux) remain as Chair. We continue to be a part of other AFN groups by attending those meetings, sharing resources, and mutual support. We are looking at larger entities such as the National Guard and others specifically how they may play a role in transportation for people with AFN.
